

***Assessment - therapy of the energy field –
The Energy Enhancement System with the Bioelectrography Kirlian
By Hon. Dr. Sabina DeVita Ed.D, R.N.C.P., CNMP, and CBP.***

Over the past twenty years, biomedical scientific research has generated new discoveries regarding reality, the universe and who we are. Today we have the frontier scientific community verifying what Great mystics have been teaching throughout the ages. **Consciousness creates and affects the physical universe.** The famous ‘observer effect’ in quantum experiments showed the world that the observer brings the observed into being and that our perception is dynamically intertwined with our universal creation and existence. Our world is not fixed, but fluid and mutable. **Quantum physics has shown us that the physical world is one large sea of energy. This pulsating field of energy is the central force or engine of our being that shapes our consciousness. As Einstein once said,**

“The field is the only reality.”

This elusive field of energy that surrounds all living entities can now be recorded and analyzed. Every physical organ, every function of the mind and body has its precise effect on the human aura. What looms in our subconscious mind – our energy blueprint – can now be seen in the Aura or the Bio-Field.

The bio-electrography instrument is the most advanced medical diagnostic system on this planet. It is certainly a unique instrument and the only scientific assessment tool to analyze energy fields of humans, animals, plants and liquids in the world. Why assess the energy field or the E-field in the first place, how can we accurately measure it and what are the benefits or advantages in using it for the Energy Enhancement System (EESystem) owners?

Why Assess the Energy Field?

Many ancient cultures and philosophies speak about seven subtle bodies or realms of consciousness that manifest in and around the physical body. This energy field more popularly referred to as the Aura determines whether or not we are well or ill.

It is well known that the content of our energy field or Aura determines our reality. Earlier research proved that all living organisms are surrounded by a subtle energy field. More importantly, the growth or program of every organism is influenced by the electric-magnetic field that surrounds it. At our elemental level, we are not a chemical reaction. We are a coalescence of energy in a field of energy.

Illness often appears in the energy field weeks, months or years before it appears in the body. In other words, the energy field is our **cosmic blueprint. So whatever shows in the Aura or Bio-field will show in the organs.** In other words, the content of our energy field or Aura determines our reality- **our biography becomes our biology.**

Dr. William Tiller, renowned scientist believes that disease or life patterns recur because only the physical body is treated. Dr. Tiller stresses the importance of treating the energy field as well – for long lasting results. All disease originates in consciousness - our thinking, our emotions - and much- up to 95%- is hidden in the deep recesses of the unconscious mind. Scientists point out that we are only aware of 2,000 bits of information out of the 400 billion bits of information we process per second from our unconscious mind.

What is the energy or subconscious blueprint stored in our aura that is inherited from our parents? What is our biography? Whatever patterns loom in our subconscious can now be accessed easily, quickly and reliably. The energy field is a ‘mirror’ of what we are carrying subconsciously.

How to measure the E- field?

Dr. Konstantin Korotkov, a Russian physicist, is the inventor of ‘real time’ computerized bio-electrography a Kirlian-style photography of the Bio-field. He is internationally renowned for his research on the human biofield, author, leading scientist & Professor of Physics at St. Petersburg University. The device is known as Gas Discharge Visualization Kirlian bio-electrography or GDV Kirlian as well as bio-photonic emission capture.

Research conducted over the last 20 years by Prof. Dr. Korotkov and his team has confirmed beyond doubt that recording the bioenergy field distribution from the electro photographic emission of the finger tips provides a very comprehensive image of the function of the entire mind-body system. *Dr. Korotkov's new GDV instrument is an accurate and reliable diagnostic tool found to be **98% accurate** in its assessment.*

It is utilized in 42 countries in research, medical facilities, universities, in hospitals and clinics across Europe.

The Russian Ministry of Health certified the GDV technique as a medical, diagnostic instrument in January 2000.

There is no more hit and miss in analyzing the bio-field with the most advanced GDV Kirlian computerized camera.

I have been using the GDV Kirlian instrument in my practice for the past 6 years as well as training professionals. In particular I have been using the GDV Kirlian with my clients as a means to identify their areas of concern, core patterns and track the before- after healings in the **EESystem**. I point out to them that ***the energy field reflects the state of their consciousness on different levels.***

I particularly like to empower my clients by helping them with their **intention**. ***Intention is critical to deliberately create a change. Scientists have provided evidence that thinking certain directed thoughts affect one's own reality. Again this is the observer effect influencing our healing & our world (the observer brings the observed into being).***

Intention requires a commitment. It is a purposeful plan for a desired outcome. Marilyn Schlitz defines intention as "the projection of awareness, with purpose and efficacy, toward some object or outcome." The energy field analysis helps to define a committed and meaningful intention for the EESystem treatment.

It is astounding to me as to what occurs with my clients in this process of awareness, intention and the use of multiple bioactive fields that includes scalar energies to optimize physical, emotional, mental and spiritual homeostasis (the EESystem). Within a short period of time, major transformations are evident. I've included one case below that took one hour.

It is interesting to note that the energy field is exactly what we are affecting when utilizing the energy enhancement system.

Before

- This woman was feeling feverish, tired, headachy, un-motivated and depressed.
- She also showed many imbalances before entering the EESystem as seen above.
- After one hour- my client felt revived,

After

- Energetic, no headache or fever and felt quite optimistic
- Plus she showed more balance in her field. She was most delighted to see her transformation
- She felt motivated and inspired.

Advantages in using the GDV along with the EESystem:

- ✓ Allows the client to see his/her own issues along with the practitioner as to what he/she looks like beforehand. "Seeing is believing" and this allows for conscious compliance by the client to direct their own fields.
- ✓ Allows the practitioner to identify specific areas of concern, including the chakra system. Color treatment in the EESystem can be used to treat accordingly.
- ✓ Allows the client and practitioner to view the changes afterwards
- ✓ Allows the practitioner to identify core patterns so as to accelerate the transformations of deep issues through client awareness
- ✓ Allows the practitioner to identify 'attractor patterns' so as to guide the client to clearly set his/her intention

Reminder: whenever we are dealing with energy- one must not confuse the field pattern with the physical functioning of the organism or person.

One's energy is ever changing and in concert with the rhythms of the universe, the frequencies of all things in their present environment, food, breath, thoughts. GDV allows us to see and assess these rhythms.

The ultimate in preventative medicine is the power of awareness & intention along with the energy treatments of the individual.

Professional Classes:

Geoffrey Riley, who is also the representative for the sales of the GDV Kirlian and I, have been training professionals from around the world in the uses of the GDV Kirlian for years. We traveled to Russia numerous times to train with Dr. Korotkov. My approach is to facilitate a personal transformative process for all our students in order for them to clear their own issues while training in the uses of the GDV device. I have found that many practitioners have old patterns and fears that become mirrored to them in their practices. What the observer observes is directly influenced by one's attitude and belief. It is especially important for EESystem owners to clear many of their own issues as these too will become magnified with the EESystem.

The Institute of Energy Wellness Studies, a federally approved, private education institution, was recently born out of my earlier background as an educator of 18 years in the public and university school system as well as my 22 years as a practitioner/teacher. It became clear to me to include the GDV training into a more formal and recognized program so a new designation - diploma was created for the school called the Human Energy Field Practitioner. This program is the first in the world to offer students a recognized designation as a Human Energy Field Practitioner. Visit www.energywellnessstudies.com

Hon. Riley and I have both embarked on the mission to teach the world how important it is to see what the subtle energy fields transmit in order to expand and transform individual and global consciousness.

The curriculum is a 300 hour program including contact hours and home assignments that teaches the student fundamental aspects in Quantum Physics, various modalities including scalar technologies, hands-on healing, visualizations & therapeutic essential oils along with the GDV diagnostic technology. We are pleased to announce that Dr. Sandra Rose Michael will be co-teaching our module 4 program on **Intentionality, consciousness and Scalar Waves** - What are they, can they be measured, what are the effects on the bio-field, are they long lasting?

IEWS is registered as a private recognized education institution by Human Resources and Social Development Canada that allows for Tax refundable tuition fees.

IEWS Inc. is also proudly accredited by the Canadian Examining Board of Health Care Practitioners. All diploma programs have met the CEBHCP's stringent standards for its legal designations.

IEWS was honored with an endorsement by Dr. Konstantin Korotkov in July 2006 at the scientific congress in Russia.

**“ Dear friends and colleagues,
It's with great pleasure and relief to be able to announce finally to all participants of the 10th International Congress "Science, Information, and Spirit" held in Saint-Petersburg, Russia in July**

2006, that I've received confirmation of the Canadian Federal Approval for the Human Energy Field educational program there. This became possible due to the long-lasting efforts and tremendous energy of our dear colleague and friend Dr. Sabina DeVita. Her institution - IEWS - became the first in world private institution which offers students Federally Approved Diploma program which gives a recognized designation as a Human Energy Field Practitioner that includes the training and uses of the electro-photonic GDV Kirlian technique.

This is a great support and achievement for the International Union of Medical and Applied Bioelectrography as it allows all the members of this Union to get the higher level of knowledge and understanding and eventually achieve a higher level of appreciation in their own countries.

We wish the great success to the IEWS and hope that the efforts of its founders will be reimbursed due to the next stage of exploration and understanding of the mysterious qualities of the Human Energy Fields."

(Dr. DeVita with Dr. Korotkov)

Dr. Konstantin G. Korotkov
President of the International Union of Medical and Applied Bioelectrography,
Deputy Director of Saint-Petersburg State Research Institute of Sport,
Professor of Saint-Petersburg State University "SPITMO" (Russia), and
Member of the Editorial Board of the "Journal of Alternative and Complementary Medicine" (USA).

The GDV is the most accurate device in the world to visually show one's subconscious blueprint.

New! Special- Package now being offered with the EESystem!

In collaboration with the birth of our new program, IEWS with Dr. Sandra Rose Michael is offering a special package for EESystem and GDV purchases. This has never been done before.

Special Promotion

Professional - Larger camera
GDV Camera Pro complex - \$9,900 USD
GDV Module 1 training- \$1200.00
IEWS student application & fees- \$300.00
Total \$11,400.00

Purchase with any EESystem and pay only \$10,600.00 - **Save \$800.00**
Purchase EESystem with the GDV - **save \$1200.00** for any purchase.

Dr. K. Korotkov, Dr. S. DeVita & Geoffre Riley
St. Petersburg Russia July, 2006

Purchase both units - Save a total of \$2,000.00!

Show special for EESystem alone is 1,000.00 - Both systems save over \$2,000.00.

Compact- Smaller camera

GDV Compact complex- \$6,900.00 USD
GDV Module 1 training- \$1200.00
IEWS student application & fees- \$300.00
Total \$7,700.00

Purchase as a unit with any EESystem and pay only- \$7,700.00- **Save \$700.00**
Purchase EESystem - **save \$1200.00**

Leasing is available.

Must leave a Deposit at the show to obtain full show special. Special is valid till 5 days after show is over.
Contact: geoff@bodyelectro.com or 905-843-3063 for GDV and Dr. Sandra Rose Michael for EESystem.
